## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

- 3) ☒ Information Disclosure Statement(s) (PTO-1449) Paper No(s) \_\_\_\_\_ 6) ☐ Other: \_\_\_\_\_

The disclosure is objected to because of the following informalities: In the specification on page 22 last line "Fig. 8B" should be changed to - Figs. 8A and 8B -; and on page 26 "described in claims 1-8" should be deleted.

Appropriate correction is required.

Claims 6-8 and 14-16 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim shall not serve as a basis for another multiple independent claim. See MPEP § 608.01(n). Accordingly, the claims 6-8 and 14-16 have not been further treated on the merits.

Claims 1-5 and 9-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 1-4 and 9-12 "such as" is vague and indefinite because it is unclear how this term further limits the claims. In claims 1-4 and 9-12 "the midway" lacks clear antecedent basis. Claims 5 and 13 depend from the above claims.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Hashimoto et al. 4,382,864. It is submitted that Hashimoto et al. appear to disclose (see col. 4 line 58 through col. 7 line 10) the process steps recited in the instant claims.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1724

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5 and 9-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hashimoto et al.. The claims differ from Hashimoto et al. as applied above by reciting the use of shear stirring, and a second stirring pump or shear stirrer. It is submitted that the intense agitation utilized in Hashimoto et al. is considered patentably indistinguishable from the shear stirring utilized in the instant invention. It would have been obvious to one skilled in the art to modify the process of Hashimoto et al. by including the recited shear stirring, to aid in mixing the flocculating agent with the sludge. The use of a second pump or stirrer would have been an obvious matter of process optimization to one skilled in the art, depending on the specific sludge treated and results desired, absent a sufficient showing of unexpected results.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
